

Risk Data Aggregation Policy

Document ID	POL-DAT-001	Type	Policy
Owner	Chief Risk Officer, Risk Management	Classification	L2 CONFIDENTIAL
Version	1.3	Effective	2024-12-01

1. Purpose

This policy sets out Cortex Bank's requirements for Risk Data Aggregation. It is owned by the Chief Risk Officer in Risk Management (RSK) and applies to all staff, contractors and subsidiaries.

2. Regulatory Basis

This policy implements the bank's obligations under BCBS 239 (REG-BCBS239).

- BCBS 239: Accurate, complete and timely risk data with documented lineage.

3. Policy Statements

- Every regulatory risk report must have documented, reconciled lineage to source systems.

4. Key Controls

Compliance with this policy is achieved through the following controls:

Control	Name	Type	Frequency	Owner	Mitigates
CTL-DA-01	Risk data lineage	Preventive	Per change	RSK	RSK-OP
CTL-DA-02	Risk data quality checks	Detective	Daily	RSK	RSK-OP

5. Risks Addressed

Operational risk (RSK-OP).

6. Implementing Procedures

This policy is implemented by: SOP-RSK-002.
