

Payment Processing & Reconciliation

Document ID	SOP-OPS-001	Type	Standard Operating Procedure
Owner	Chief Operating Officer, Operations	Classification	L1 INTERNAL
Version	4.2	Effective	2024-02-01

1. Purpose and Scope

This procedure describes how Operations performs 'Payment Processing & Reconciliation'. It implements Financial Reporting Controls Policy (POL-FIN-001), Information Security Policy (POL-CYB-002).

2. Systems Used

- PayHub (SYS-PAY): Payments gateway for SEPA, SWIFT and card schemes.
- Heritage Core (SYS-CORE): Core banking ledger, IBM mainframe (COBOL), in service since 1974 and inherited in part from Harbor Trust.

3. Procedure

Step	Activity	Controls
1	Payments above 50,000 require maker-checker approval in PayHub.	Maker-checker on journals and payments (CTL-FR-02)
2	Card payments are processed only within the cardholder data environment.	Cardholder data segmentation (CTL-PCI-01)
3	Reconcile nostro and suspense accounts daily.	Account reconciliation (CTL-FR-01)

4. Guardrails

This procedure is subject to: GRD-001, GRD-002.

5. Version History

Version	Effective	Change
1.0	2004-05-01	Original procedure (SOP-OPS-001-V1), retired 2024-02-01.
4.2	2024-02-01	Current version. Supersedes SOP-OPS-001-V1.
